Dear Johanna Krok

It excites me to apply for the Sales Manager position with USU solutions because, as I can see from your job description, you are searching for someone that can offer great communication and negotiation skills with a successful track record working in the SaaS industry to support it. Fortunately, as you can see in my CV, I have extensive experience in these areas — evident by my previous sales experience working B2B and B2C alongside blue-chip companies around the world.

My German language skills currently stand at a B1 and I am actively working towards a C1.

## What am I looking for?:

- new challenges
- The opportunity to earn with an uncapped commission structure
- A healthy balance of a cooperative and competitive working environment
- An environment that allows me to keep my finger on the pulse of the tech industry
- The ability to work remote as well as within the office

## To conclude:

Thank you for taking the time to look over my cover letter. I hope it finds you well.

If you would like to speak further about how I can contribute towards the success of USU solutions, please feel free to contact me on any of the contact details made available at any time.

Kindest regards

Jeremiah Brown
